duplicating or 'splitting' issues

Splitting/Duplicating Issues on the Roadmap

You told us that you don't always finish all of the work involved in an issue in one go, that's why we allow you to schedule the same issue multiple times on the roadmap.

Click on the issue you wish to schedule multiple times, holding down the *alt* key and drag into position - reflecting the way teams REALLY work, and not distorting the roadmap

The screenshot shows a Jira Roadmap for 'Car Infotainment System' with a grid layout. The grid is divided into quarters: 2018 Q2, 2018 Q3, 2018 Q4, and 2019 Q1. Issues are represented as cards with titles and IDs. Two instances of 'CIS-1 Navigation' are highlighted with orange borders, one in 2018 Q3 and another in 2019 Q1. Other visible issues include 'CIS-18 The 'Family' Driver / ...', 'CIS-7 Backseat Media', 'CIS-2 Play Media', 'CIS-84 Support Apple CarPlay', 'CIS-11 The 'Sunday' Driver / ...', 'CIS-6 Fatigue Management', 'CIS-33 The 'Family' Driver / Object Detecti...', 'CIS-83 Install Maps', 'CIS-5 Handsfree Control', and 'CIS-3 Phone Integration'. The interface includes a top navigation bar with 'Back to board', 'Create Theme', 'Create Issue', 'Markers', 'Quick filters', and an 'Issues' button. A sidebar on the left shows categories like 'Entertainment', 'Navigation', and 'Communications'. Milestones 'V1 - Minimum Marketable Product', 'V2 - Customer Viable Product', and 'V3 - Limited Edition Model' are also visible.

GETTING STARTED

Theme/Team Swimlanes

creating swimlanes

Creating Theme/Team Swimlanes inside the Roadmap

quickly create swimlanes inside the roadmap. Click the button to open the 'Create Theme' dialogue. Your new swimlane will appear at the bottom left of the Roadmap

editing versions on the roadmap

The screenshot displays a roadmap for a 'Car Infotainment System' by Easy Agile. The roadmap is organized by quarters (Q2, Q3, Q4) for the years 2018 and 2019. A 'Today' marker is positioned in Q3 2018. Two version markers are visible: 'V1 - Minimum Marketable Product' and 'V2 - Customer Viable Product'. A dialog box titled 'Edit Version' is open, allowing for the modification of the 'V2' version. The dialog includes fields for 'Version name', 'Start date (Optional)', 'Release date (Optional)', and 'Description'. The 'Version name' field contains 'V2 - Customer Viable Product', the 'Start date' is '2018-06-07', and the 'Release date' is '2018-08-27'. The 'Description' field contains 'Edit version details without leaving the roadmap'. 'Save' and 'Close' buttons are at the bottom of the dialog. The background roadmap shows various features categorized into Media, Navigation, and Communications, with specific items like 'CIS-18 The 'Family' Driver / ...', 'CIS-7 Backseat Media', 'CIS-82 Support Apple TV', 'CIS-1 Navigation', 'CIS-33 The 'Family' Driver / Object Detecti...', 'CIS-83 Install M', 'CIS-5 Handsfree Control', and 'CIS-3 Phone Integration'.

Editing Version Details on the Roadmap
edit version details like name, start/release date and description without leaving the roadmap. Click on the version on the roadmap to pop the 'Edit Version' dialogue.

Alternatively, dragging and dropping the version marker on the roadmap will change the versions start and release dates
